## STATEMENT

Recently completed the second year of my Bachelor of Design degree in Interaction Design and previously completed a work placement in web design. I have also gained valuable skills during my academic studies, such as communication, problem solving and organisation, which helped me in my professional work, and my aim is to further develop my technical and creative skills further in the design industry.

## SKILLS

- Flexibility
- Leadership
- Problem Solving
- Time Management
  
- Branding
- Prototyping
- User Research
- Wireframing
